Education

Bachelor of Technology in Computer Science and Engineering **2016 – 2020**
RCC Institute of Information Technology, *Maulana Abul Kalam Azad University of Technology, West Bengal* *8.33 DGPA*
- **B. Tech. Thesis:** Word Recognition on Indic Script

Intermediate in Science **2014 – 2016**
Mrs. K M P M Inter College, *Jharkhand Academic Council, Jharkhand* *75.4%*

Matriculation (10th Std.) **2010**
Vani Vidya Mandir, *Jharkhand Academic Council, Jharkhand* *73%*

Skill

- Algorithm
- Data Structure
- Big Data Processing
- Anglur
- Node.js
- SQL
- TensorFlow
- PySpark
- Pandas
- OpenCV
- Gensim
- spacy

Experience

Infosys **Sep 2020 – Present**
Digital Specialist Engineer *Bangalore, Karnataka*
- Identifying and understanding the applicability of business problems across multiple domains leveraging data, cloud, AI, IoT and other new and emerging technologies.
- Writing high-performance high-quality code that is secure across technology and domain area.

TATA Sponge and Iron Limited **Jul 2019**
Intern *Jamshedpur, Jharkhand*
- Developed a portal for employees to request transport services and track available transport vehicles.
- Understanding the user need and implementing a secure, scalable, reliable and simple to use interface.

National Institute of Technology **Jul 2018**
Intern under Dr Dilip Kumar *Jamshedpur, Jharkhand*
- Developed an efficient data logger for streaming data and displaying it on an interactive interface. The streamed data is saved for future ETL processes.

Projects

CISCO as client project | *Incorta, Python, SQL, Angular* **July 2022**
- Executing batch job in server to generate reports, insight for different data generated every month; delivering results to the client.
- Deploying new features in the existing web portal as per client need. Ensuring continuity and reliability of portal.
- Developed script for varieties of servers for reliability, diagnosis and QA.

Resume Ranking Model | *NLP, Word2Vec, Ontology, Topic Modeling* **October 2021**
- Designing and implementing a fair, transparent, scalable, accountable and reliable AI for sorting resumes that organization receive every day from different sources.
- The developed system can rank resume against job requirements or display best job opening against resume.

Forecasting COVID-19 Spread | *LSTM, TensorFlow, Keras* **July 2020**
- A forecasting project for COVID-19 spread using LSTM neural network architecture.

Technical Skills

Languages: Python, JavaScript, TypeScript, C++, Java, SQL
Database: SQL, MongoDB, Firebase
Full Stack: MEAN, Flutter
Emerging technologies: TensorFlow, PySpark, OpenCV
Agile: Jira, Git, Bit-Bucket

Certification

- Incorta 5 Essentials for Business Analysts, *Learn Incorta*
- Cloud Digital Leader, *Google Cloud*
- Azure Data Fundamentals, *Microsoft* • Azure AI Fundamentals, *Microsoft* • Azure Fundamentals, *Microsoft*

Publications

- Recognizing Bengali Word Images - A Zero-Shot Learning Perspective, *In Proc. International Conference on Pattern Recognition (ICPR 2020)*, pp. 5603-5610, Milan, Italy.
- Bengali Place Name Recognition - Comparative Analysis Using Different CNN Architectures, *In Proc. International Conference on Computer Vision and Image Processing (CVIP 2020)*, pp. 341-353, Prayagraj, India.
- Finding Logo and Seal in Historical Document Images-An Object Detection Based Approach *In Proc. Asian Conference on Pattern Recognition (ACPR 2019)*, pp. 821-834, Auckland, New Zealand.
